"Protection of the integrity of the institution, its role and relationship to society, and its basic mission of service to the people of the state, are areas of faculty and student concern, but not of faculty and student expertise. These are areas for the governing board and administration. And my whole point is that academic governance must be studied in depth and reorganized so that authority and responsibility in these areas can be pinpointed far more accurately than they now are." -Glenn S. Dumke, Chancellor, The California State Colleges.

more people will be added This bill is being sold to the welfare roles. And Box Five

This bill is being sold as a means of taking people off the welfare rolls and putting them to work. In fact, it will add some 3 million more families, from 1.7 million to about 4.6 million, or 15 million more people, to the welfare payments.

To pay for this act of pure socialism, we will definitely have to increase taxes, which may mean a first year of operation.

Under the plan, the Federal Government will finance minimum annual welfare payments of \$500

to the welfare roles. And if experience with other social programs is any guide, politicians will hit the campaign trail promising greater increases in these welfare payments.

To pay for this act of pure socialism, we will definitely have to increase taxes, which may mean a return to the 10 percent surtax, as a minimum.

Mark my word, once such a tax is levied, it will never ever be removed.

I had to ask a whole lot and several nieces and then everything in life is of people about the crowd before I was convinced that the 'Brewer crowd' was largest. The clincher was an admitted Wallace man who began by making excuse for Brewer outdrawing Wallace. He may have been right in his reasons but he is the man that established for me that Brewer drew the largest crowd by several

> All eyes are turned toward the moon this week as the race is on to return America's three moon tourist to earth in a crippled space ship. I wish them luck and hope the good Lord is willing and the creeks don't

Before we leave politics for the week there are two things I must repeat. Several weeks ago when it became evident that George Wallace was going to run again for Governor I met Sam Sawyer in the post office. Now, Sam is a Wallace fan from the word go and lets it be known. We agreed that day that even though we were on opposite sides of the fence in that affair, we would still have to both live in Elba after it was over regardless of who wins. Therefore, if either of us eels that the heat of the race is getting the best of our friendship, we are to blow the whistle anad the next order of business will be a cup of coffee and talk of anything but politics! I hope it works!

Also met Kimmie Dorsey on the street this week and after an exchange of wise cracks he informed me that he would like my vote but would prefer NOT to have my influence! I could only say thanks and privately wonder if he has ever heard of the book, "How to Win Friends and Influence People."

I am enjoying reading the "letters to the Editor" in the daily papers during this political year. People are so positive in their thinking. It is possible to see in a singleissueletters from those who know that their man (at least 4 governor candidates) is going to be elected. Several even have conflicted on "God's Will" in this 1970 race. People sure are interesting.

must congratulate The People's Bank this week. They have a page ad this week announcing a new credit policy, BankAmerica cards. While the eggheads that analize our society often frown on the business wisdom of credit buying that hasten to admit that it is here to stay and become more evident. This type credit is sweeping the country and I am proud to see our local people "keeping up with the times."

ESLIE E. MULLINS PROBATE JUDGE OF **COFFEE COUNTY**

The man with the courage to face the issues in the race and the one with a plan to promote BETTER COUNTY GOVERNMENT

THE MAIN ISSUES ARE:

1. Unit system for building road and bridges. All work will be done from a central location in the County. Will save a minimum of \$100,000,000 annually.

2. Call a referendum and let the people decide whether we shall have one or two court houses.

3. Set up the construction of roads and bridges on a priority basis. Serve the most people first. Maintain all roads and bridges so they can be used all the time.

4. Close the Communication Gap. Let the people know where their money is being spent and where it will be spent. Set up a County wide planning committee.

5. Stop littering the county with refuse and set up solid waste disposal sites throughout the county.

6. Forget about two divisions in the County and work for the good of the County as a whole.

BankAmericard is coming your way!

It's the all-purpose credit card that's honored locally and nation-wide

Instant credit.

BankAmericard will give you instant credit at most merchant locations in our area. It's also good at more than 548,000 other locations across the country.

BankAmericard will replace nearly all the credit cards in your wallet.

Imagine, one credit card that's good at dress shops, fewelers, gas stations, hardware stores—even restaurants, hotels and airlines both at home and when you travel.

No dues or fees.

Many credit card plans charge you annual dues and fees. Not BankAmericard. It costs you nothing to get your card.

One bill to pay instead of many.

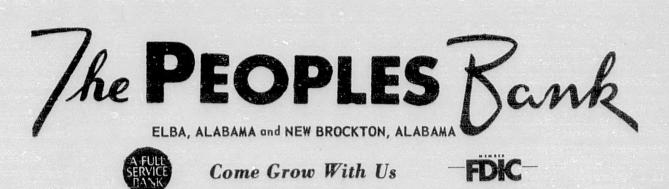

BankAmericard will send you one monthly bill, no matter how many stores you charge in. You may pay as little as 1/20 of what you owe each month plus a small service charge.

No service charge.

There is no service charge if you pay your account in full within 25

You don't have to be a customer of our bank. Anyone with established credit is eligible.

BankAmericard is accepted for identification. When you are asked for identification, two things are universally accepted: your driver's license and a national credit card, like

Some people do things differently. For instance, a 4% water, gas, electricity and phone tax was placed on the people instead of the utilities. It's time to change that.

You work and sweat. Try to make a buck and keep ahead of the high cost of living. And yet, every time you turn on the water, the gas, the electricity, or pick up the phone, you're socked with a 4% utilities tax on your monthly bill.

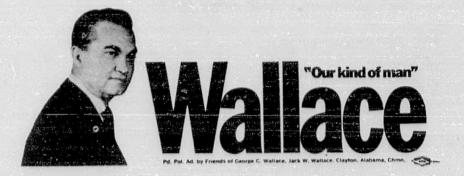

That's right, you're paying it. Not the That tax should have been placed on the utility companies, instead of the people. So, the first order of business in the new Wallace administration will be legislation to

remove this 4% tax from the backs of the people and put it on the utilities-where it belongs. And in addition, George Wallace will appoint a committee of citizens to investigate utility rates in Alabama. He's going to hire a start the battle again. "people's lawyer" to represent the people in rate
